VOLUME 23 • NUMBER 0 • JANUARY, 1957

*Now! All the convenience of the 35mm camera
...plus...all the advantages of
the 2 1/4 x 2 1/4 negative!*

\$119.50

ANSCO SUPER SPEEDEX

- Takes 12 2 1/4 x 2 1/4" negatives on 120 roll film!
- New Agfa Solinar f/3.5 lens and 1/500 second M-X-V Synchro-Compur Shutter!
- Wide-base coupled rangefinder for perfect focusing . . . even in poor light!

Automatically, the new AnSCO Super Speedex "thinks through" all these jobs: loads, measures, positions film . . . prevents double-exposure . . . protects lens against damage . . . locks lens and shutter opening at any pre-determined setting.

Here's the camera that *guarantees* transparencies with no

fall-off, no blurring at edges! The reason? A great new Agfa Solinar f/3.5 four-element lens that is sharp right out to the edges . . . even at maximum aperture.

Ask your dealer about *all* the precision features that make the AnSCO Super Speedex the *one* camera you'll never outgrow! A whale of a buy at \$119.50!

**Automatically...
and feature by
feature...the world's
finest folding
roll film camera!**

AUTOMATIC LOADING

Insert film, close back, turn knob. Film positions itself *automatically* for first and later exposures!

WIDE-BASE COUPLED RANGEFINDER

Precise optical distance meter couples with lens, combines with viewfinder for fast, easy operation!

AGFA SOLINAR F/3.5 LENS

Hard-coated, four-element. Focuses as a unit for crisper, finer shots. Paired with 1/500 second M-X-V Synchro-Compur Shutter for all types of flash and strobe!

TOP-SIDE CONTROLS

Film type reminder setting dial, accessory clip, frame counter and winding knob are all conveniently grouped for ease and speed in use.

Another great precision camera from AnSCO

DIRECTORY OF MEMBERSHIP

This list of members was prepared by PSA Headquarters as of November 30, 1956. Names and addresses are followed by a code indicating LIFE and CORNERSTONE MEMBERS, Divisional affiliation and month and year of joining PSA. When no Division letters appear, it means that Headquarters has no record of affiliation with a Division. A geographical index will be found at the back.

Every effort has been made to insure the accuracy of the listings, but your cooperation in checking your own name, address, and Division is earnestly requested. Errors can be corrected only with your help. Communications should be addressed to PSA Headquarters, 2005 Walnut Street, Philadelphia 3, Pennsylvania.

The code used is as follows:

† - Cornerstone Member
 †† - Life Member
 • - Travel Aid
 C - Color Division
 M - Motion Picture Division

N - Nature Division
 J - Photo-Journalism Division
 P - Pictorial Division
 S - Stereo Division
 T - Photo-Techniques Division
 • - Deceased

Because of space limitations, all miscellaneous memberships, subscriptions, etc., have been omitted.

Extra copies of this Directory may be purchased by members only from PSA Headquarters, 2005 Walnut St., Philadelphia 3, Penna., at \$1.00 each, payable with order.

Use of this Directory for sales solicitations is made without the approval or sanction either of PSA or of PSA Journal. PSA Members are reminded that it is impossible to provide the convenience of a membership list without risking its use for sales or other commercial purposes. Such use constitutes no endorsement by PSA or by PSA Journal of products or services thereby offered.

PSA Honors and Requirements

STATEMENT OF POLICIES

"PSA Honors are awarded in recognition of contributions to the advancement of the art and science of photography. Such contributions take many forms which may generally be divided into those resulting principally from proficiency and achievement and those primarily of a service nature. Since personal achievement alone does not necessarily contribute to the advancement of photography, it does not qualify the candidate unless combined with elements of service. (See the Fellowship and the Associateship.) On the other hand, service may contribute substantially to the advancement of photography even though the candidate's proficiency in the use of the medium may be limited. (See the Honorary Membership and the Associateship, category II.) PSA Honors are not degrees of membership nor recognition of proficiency alone."

THE HONORARY FELLOWSHIP is the highest Honor awarded by the Society. It is awarded only for unique or outstanding contributions of major importance to photography. The unanimous approval of the Honors Committee and the unanimous approval of the Board is required and the number of living Honorary Fellows is limited to 25. Candidates need not be members of the Society.

THE HONORARY MEMBERSHIP is awarded for outstanding service to photography, particularly through organizational or similar work. Proficiency in the use of the photographic medium is not a requirement. It may be recommended by a three-fourths vote of the Honors Committee and requires a three-fourths vote of the Board for approval. Candidates need not be members of the Society.

THE FELLOWSHIP is awarded for outstanding contributions to the advancement of photography involving a high degree of proficiency and achievement combined with such elements of service as the dissemination of acquired knowledge by lecturing, judging, instructing, publishing of articles, papers, etc. Personal achievement alone does not qualify a candidate for this Honor. The Fellowship may be awarded by a three-fourths vote of the Honors Committee.

THE ASSOCIATESHIP is awarded for material contributions to the advancement of photography, whether resulting primarily from proficiency and achievement or service alone. As in the case of the Fellowship, achievement must be combined with elements of service. The Associateship may be awarded by a majority vote of the Honors Committee.

Examples of Qualifications In The Various Fields of Photography

1—MONOCHROME PICTORIAL (including portraiture) Since pictorial photography is closely allied with exhibiting and competitions, considerable weight will be given to the candidate's exhibition and competition record, awards for pictorial merit, promotion of salons and exhibitions, the judging of exhibitions, etc.

2—COLOR

As in the case of monochrome pictorial photography, weight will be given to the candidate's exhibition record, organization and promotion of salons and exhibitions, judging, etc. Mastery of creative design, composition and color harmony are important qualifications. Proficiency and achievement in the use of color photography in fields other than pictorial may be considered under this category or, if incidental, may be considered collateral in the field of major endeavor.

3—MOTION PICTURE

Exceptional ability in directing, producing, processing, editing, titling films and mastery of techniques for producing effects, accompanying sound, etc. will be considered, as will any other contributions to the art and science of motion picture photography.

4—PHOTO-JOURNALISM, Documentary and Other Reportorial Photography

Ability in this area as indicated by the publication of candidate's work in newspapers, magazines, trade journals, house organs, etc., as well as illustrations for books or publicity and public relations, will be considered.

5—NATURE

Weight will be given to the candidate's exhibition record, etc., but the inclusion of his work in museums of natural history, and the use of his pictures as illustrations for books, articles and lectures on nature as well as his scientific background are considered important.

6—PHOTOGRAPHIC RESEARCH and Development of Processes and Apparatus

The degree of responsibility for the initiating, directing and results of the research or development is considered the important factor in evaluating his qualifications in this category. This field includes the photographic aspects of photomechanical work. Published reports of work, listed as to title, date and place of publication as well as patents issued are considered indicative of the candidate's accomplishments.

7—SCIENTIFIC AND TECHNICAL PHOTOGRAPHY In this category achievements in the application of specialized photography to scientific, industrial and commercial fields will be considered. This includes photomicrography, medical photography, spectrography, astronomy, X-ray, high-speed photography and aerial photography. New applications of photography to the solution of problems are important. Weight will be given to papers published and patents granted.

8—PROFESSIONAL PHOTOGRAPHY

In this category achievements in professional work in creative, commercial, illustrative and portrait photography and the promotional or advertising type of industrial photography will be considered.

9—GRAPHIC ARTS

In this field creative work in the application of the photographic aspects of photomechanical reproduction by any process will be considered.

10—EDUCATION

Consideration will be given to the organization, supervision and teaching of photographic classes; the writing, publishing or editing of photographic publications; and similar educational activities.

11—ORGANIZATION AND PROMOTION OF Photographic Activities

The organization and direction of camera clubs, councils, exhibitions and other group activities and the dissemination of knowledge through lectures and writing for or editing local publications, arranging programs, etc., as well as noteworthy service to PSA will be considered as qualifications for the Associateship. Outstanding or unique service of a similar nature are qualifications for the Honorary Membership. Such service is also a collateral qualification for the Fellowship, which is awarded primarily for contributions to the advancement of photography through proficiency and achievement in the use of the medium.

THE HONORS COMMITTEE MAY IN ITS DISCRETION WAIVE ANY OF THE SPECIFIC REQUIREMENTS WHEN SUCH WAIVER IS NOT INCONSISTENT WITH THE OBJECTIVES OF THE SOCIETY AND ITS POLICIES. IT MAY ALSO AWARD HONORS OTHER THAN THOSE REQUESTED WHEN IT DEEMS THEM MORE APPROPRIATE TO THE QUALIFICATIONS OF THE CANDIDATE.

The Statement of Policies above is based on a report of the 1952-53 Honors Committee. It is basically true, but bear in mind that each year the Honors Committee revises the rules for the following year to overcome inequities and maintain the high standards set for these awards. It is possible you may encounter minor deviations in the latest instructions from the Honors Committee in which case the latest instructions prevail.

Picture of a successful host

Watch your guests as your Kodaslide Signet Projector throws the first slides on your screen. Their faces will tell you... you're putting on a masterful slide show.

Your slides are beautiful, sparkling things. You've put a lot into them. You want your show to be just as good, too—smooth, with the ease and polish these slides deserve.

So you use a Kodaslide Signet Projector. Up there on the screen the colors fairly glow with life, sharp and crisp from corner to corner. Yet the Signet doesn't even need darkness; you leave some of the room lights

on if you wish. And its husky impeller blower is quiet... just whispers politely while it keeps things cool.

Your Signet's snap-action slide changer slips slides carefully in place, slides them out again quick as a wink... in the original sequence, ready to go back in the file box. And you can put the automatic changer in place in a trice.

Take a few slides in hand—either regular 35mm or the new 1½ x 1½-inch transparencies—and try out a Kodaslide Signet Projector at your dealer's. It's an experience you shouldn't miss... and neither should your future guests.
